

## THE SENSE OF LIBERTY

By

Makate Meshack Tebeila

## WHAT A BOOK IS ALL ABOUT

A modern world has a tendency of making kindly provision for people's needs but not giving them their natural independence. The sense of liberty book is a book based on self-rule, self-governance, self-determination and independence. It emphasize how government should exercise its authority over its citizens. It reminds an individual

what liberty is. It commemorates a personal freedom from servitude that mankind has once experienced. And these books make a plain and comprehensible gloss about how authorities and individuals should exercise pre-emptive rights that entitled them to live freely at no cost. These books advocate the doctrine of free will. It is written on the ideological belief in freedom of thought and speech. It is not a book that is biased, favors one person or takes a side. A content of these books encourages a decision that is impartial to every citizen of the world. Remember liberty is your personal freedom from servitude or oppression, so from today I discharge every mind to go in no doubt of anything to go and ingest on this hill, which is higher than other hills.
